Windows

Hardware	Components	Requirement	Applicable operating systems
Disk Space	Desktop IBM SPSS Statistics Client	1 gigabytes (GB) of available hard-disk space. If you install more than one help language, each additional language requires 60-70MB disk space.	All supported Windows operating systems
Memory	Desktop IBM SPSS Statistics Client	1 gigabyte(GB) of RAM or more.	All supported Windows operating systems
Other Hardware	Desktop IBM SPSS Statistics Client	Intel or AMD x86 processor running at 1 gigahertz (GHz) or higher. 1 gigabyte (GB) of RAM or more. 900 megabytes (MB) of available hard-disk space. If you install more than one help language, each additional language requires 60-70 MB of disk space. Because the installer extracts files before installing, the same amount of temporary disk space is also needed for the installer. If you don't have enough space in /tmp or your home directory, use the IATEMPDIR environment variable to specify a different temporary location for the extracted installer files. You can remove this folder after installation. If using physical installation media, DVD/CD drive.	All supported Windows operating systems
